Fig. S1: mosquito taxa identified from forest habitat in the Ecuadorian Amazon, detailing diversity in larvae habitats and adult collections methodology. Some 68 unique taxa, representing 17 genera and 27 subgenera and 12 species new to science, were collected in this study. Two undetermined species representing new subgeneric records for *Anopheles* (*Stethomyia*) and *Sabethes* (*Sabethes*) are also included. Subgeneric abbreviations are given in parenthesis. *Anopheles* sp. nr. *konderi* is the same taxa as in Ruiz-Lopez et al. (2013). Undetermined species within the *Culex coronator* group: males of *Cx. camposi* and *Cx. usquatus* have been unequivocally confirmed using slide-mounted genitalia and are listed separately.

Habitat details and associated species per collection

All collections were carried out in the environs of the TBS by RCW. Coordinates are given in square brackets. Redundancies are removed.

1998

- EC100. Harpía Trail 750 m: stream margin, slow clear water, heavy shade. 29.x.1998. *Cx. (Mel.) elevator* [-0.630607, -76.145393].
- EC103. Harpía Trail 100 m: fallen palm bract. 29.x.1998. *Cx. (Car.) urichii* [-0.637087, -76.150089].
- EC104. Tower: bromeliad axil. 29.x.1998. *An. (Ker.) lepidotus*, *Wy. (Wyo.)* sp. nr. *medioalbipes* [-0.638056, -76.145000].
- EC105. (as EC104) *Cx. (Mcx.) chryselatus*, *Wy. (Hys.) autocratica*.

 EC210. (as EC104) Oviposition cup, c. 5 m up tower. 14.xi.1998. *Tr. digitatum*.
 EC212. (as EC209) *Tx. (Lyn.)* sp. undet.
 EC213. (as EC104) Oviposition cup, c.25 m up tower. 14.xi.1998. *Tr. digitatum* [-0.638058, -76.156169].
 EC214. (as EC106) Aged bamboo cup filled with boiled leaf water. 16.xi.1998. *Tr. digitatum*.
 EC215. (Exact location unknown) 17.xi.1998. *Wy. (Dec.) ulocoma*.
 EC216. (as EC169) Large stream leading to swampy area, permanent turbid water, partial shade. 17.xi.1998. *An. (Ano.)* sp. nr. *fluminensis*, *An. (Lph.) squamifemur*, *An. (Nys.)* sp. nr. *konderi*, *Ch. bonneae*, *Cx. (Mel.) theobaldi*.
 EC217. Nr Main Camp: bamboo stump filled with boiled leaf water. 18.xi.1998. *Lt. (Lut.) allostigma*, *Tr. digitatum* [-0.37087, -76.150089].
 EC218. (as EC106) *Heliconia* axil. 20.xi.1998. *Wy. (Dec.) ulocoma*, *Wy. (Dec.)* sp. undet.
 EC219. (as EC106) Adults collected resting inside laboratory. 13.xi.1998. *Cx. (Cux.)* sp. undet., *Ps. (Jan.)* sp. undet., *Sa. (Sab.)* sp. undet., *Tr. digitatum*.

1999

- EC254. Rio Tiputini (6 km from Tiputini Biodiversity Station): bamboo internodes (c.15). 25.v.1999. *An. (Ker.) bambusicolus*, *Cx. (And.) bamborum*, *Cx. (Car.) secundus*, *On. imparis*, *Tx. (Lyn.) bambusicola* [-0.663889, -76.215558].
 EC255. Rio Tiputini, Blackwater area (nr Tiputini Biodiversity Station): large swampy area (c.10 hectares), permanent slow-moving clear water, partial shade. 26.v.1999. *An. (Ano.)* sp. undet., *An. (Nys.)* sp. nr. *konderi*, *Cx. (Mel.) theobaldi*, *Ch.* sp. undet. [-0.638333, -76.181944].
 EC256. (as EC104) Bromeliad axils (c.10), nr top of 32 m tower. 26.v.1999. *An. (Ker.) lepidotus*, *Cx. (Mcx.)* sp. undet., *Cx. (Mel.)* sp. undet., *Tx. (Lyn.)* sp. undet.
 EC257. Harpía Trail 750 m: small stream margin (c.1 m wide), permanent slow-moving clear water, heavy shade, in floating leaves and debris. 27.v.1998. *Ch.* sp. nr. *fajardoi* [-0.630607, -76.145393].
 EC258. (as EC257) *Ch. bonneae*.
 EC259. (as EC106) Shannon trap by gas lantern. 29.v.1998. Adult collection: *An. (Nys.)* sp. nr. *konderi*, *Cx. (Cux.)* sp. undet., *Cx. (Mel.) pilosus*, *Cx. (Mel.)* sp. undet., *Cx. (Mel.) theobaldi*, *Cx. (Mel.) vomerifer*, *Hg. (Hag.)* sp. undet., *Oc. (Chs.) fulvus*, *Oc.* sp. undet., *Ps. (Jan.) albipes*, *Tr. digitatum*.
 EC260. Guacamayo Trail 550 m: small stream margin (c.1 m wide), permanent, slow-moving clear water, heavy shade. 29.v.1999. *Ch. bonneae* [-0.634476, -76.153932].
 EC263. Lake (c. 4 hectares): permanent, standing turbid water, partial shade. 29.v.1999. *An. (Ano.) matto grossensis*, *An. (Ano.)* sp. undet. [-0.636111, -76.165000].

- EC264. (as EC106) *Heliconia* axils (c. 70 inflorescences). 31.v.1999. *Wg.* (*Dec.*) *ulocoma*, *Tr. digitatum*.
- EC266. Chorongo Trail 1,100 m: small stream margin (c.1 m wide), permanent slow-moving clear water, heavy shade. *An.* (*Ano.*) *forattinii* [-0.635344, -76.151358].
- EC267. Chorongo Trail 800 m: palm frond, heavy shade. 01.vi.1999. *Tx.* (*Lyn.*) *haemorrhoidalis* [-0.633068, -76.150561].
- EC268. Chorongo Trail 375 m: bromeliad axil. 01.vi.1999. *Wg.* (*Dod.*) *aphobema*, *Cx.* (*Mcx.*) sp. undet. [-0.633657, -76.148298].
- EC269. Maquisapa Trail 5,300 m: large swamp, permanent standing clear water, heavy shade, in debris. 02.vi.1999. *An.* (*Nys.*) sp. nr. *konderi*, *An.* (*Ano.*) sp. nr. *fluminensis*, *Cx.* (*Mel.*) sp. undet. [-0.626363, -76.170037].
- EC270. (as EC196) Internode in dead bamboo. 02.vi.1999. *Tx.* (*Lyn.*) *haemorrhoidalis*, *Cx.* (*Car.*) *iridescens*.
